

## Digital Pendulum Impact Tester (1 to 50 Joules)

- Ability to perform impact tests (Charpy, Izod, and Tensile Impact)
- Equipped with a 4.3 inch color touch screen for easy settings test
- Easy installation of various types of pendulums in different capacities
- Mechanical connections with minimum friction
- Design based on impact center
- Pendulum fall systems automatically
- Included a digital angular measurement and failure force system
- Ability to calibrate and display pendulum speed and friction
- Designed and manufactured in accordance with the standards ISO 8256, ISO 179, ISO 180, ASTM D256, ASTM D6110
